

**Your advantages**

- > Suitable for temperatures up to 140°C
- > Back-pull-out version
- > Extension of the DIN EN 733 product range

**Construction**

Single-stage low-pressure centrifugal pump mounted on the baseplate

**Application**

- > Pumping of heating water (acc. to VDI 2035), cold water and water/glycol mixtures without abrasive substances in heating, cold water and cooling systems.
- > Applications in municipal water supply, irrigation, building services, general industry, power stations, etc.

**Scope of delivery**

- > Pump
- > Installation and operating instructions

**Materials**

- > Pump housing: EN-GJL-250
- > Impeller: EN-GJL-250
- > Shaft: depending on type X30Cr13

**Description/construction**

Single-stage low-pressure centrifugal pump in block construction with coupling, coupling guard, motor and baseplate

- > Spacer coupling
- > Mechanical shaft seal or stuffing box
